

# HEKTOEN INTERNATIONAL

---

## A journal of medical humanities

All Blood Contest submissions should be emailed to [contest@hektoeninternational.org](mailto:contest@hektoeninternational.org). Please refer to our website ([hekint.org](http://hekint.org)) for specific rules and guidelines.

### 1. Cover page:

- Author(s) names
- Biography of author(s): no more than 100 words
- Contact Information
- Location (as you would like it listed in the journal)
- Professional affiliation
- Titles/degrees

### 2. Articles

- Title and page numbers in the document header
- Full text of the article in Times New Roman, Font-size 12, Double-spaced
- Format in Chicago Manual of Style ([www.chicagomanualofstyle.org](http://www.chicagomanualofstyle.org)) or AMA style ([www.amanualofstyle.com](http://www.amanualofstyle.com))
- References for quoted and cited material formatted according to the Chicago style or AMA Manual of Style, with the endnotes in numerical order
- Save article as follows: AuthorLastName\_ArticleName.doc

### 3. Illustrations

- Word document with Caption(s) and Source (including address of website where you found the image). For Artwork, please provide the title and date of work, the artist's name, and the location of the artwork (museum or private collection). Save as follows:  
AuthorLastName\_Caption.doc
- High quality images in JPG format  
Save each image as follows: AuthorLastName\_ArticleName.jpg  
\* add the picture number(s) at the end (AuthorLastName\_ArticleName#.jpg)  
if you are including several images.

Submitted articles must be unpublished, original work on the subject of Blood and honoring the achievements of the Red Cross. No more than 1,600 words in length. Articles may be accompanied by images, however, final image choices will be determined by our journal staff. Rights to images must be acquired by the author prior to submission.

We will consider essays on pioneers in hematology (such as Herrick, Minot, Murphy, Whipple, or Land-steiner); history of venesection, barber surgeons, use of leeches, and vampires; as well as historic aspects of blood transfusion; artificial blood, blood groups, blood preservation and blood banks, blood in surgery; blood diseases (pernicious anemia and liver extract, sickle-cell disease thalassemia, leukemias, hemophilia, chlorosis and iron therapy); and the achievements of the Red Cross, its history and work.

Deadline (January 15, 2020, at 12pm Central Time)
